how to use eem

The 36th edition of EEM is arranged in four volumes each composed of related Product Sections. For user convenience, each volume contains its own Product Index and Directory (green pages) and its own Manufacturers and Sales Offices Directory (yellow pages). Every Product Heading and every manufacturer of electronic products is listed in each volume. Where, however, the Product Section is assigned to a volume other that that in use, a cross reference is made to the appropriate volume for further information.

To locate a specific product. Start by choosing the volume whose title describes the class of electronic product you are seeking. If you are not sure which volume is appropriate, pick up the first one at hand and look up the product heading in the green pages. There you will find either a list of that product's manufacturers or you will be referred to the proper volume. All products are identified by their generic terms. Please read the instructions on the first page of each section. Manufacturers with catalog data pages in this edition of EEM appear in boldface type and page numbers are shown. Manufacturers appearing in lightface type have submitted verifying evidence that they supply the products shown. When you have located a product of interest, turn to the page(s) shown for further information. You will find these pages in each volume in the appropriate sections.

product selection guides

There are 37 Product Selection Guides included in this edition of EEM. They are located on the first pages of the Product Section to which they apply. Use these guides for basic selection parameters and then go to the EEM pages shown in the guide for more detailed information.

advertisers' index

To find a specific manufacturer's data pages, an alphabetical index of EEM participants appears in EEM starting on page **A**•5 of Volume A and on pages **B**•5, **C**•5 and **D**•5 of the other volumes.

manufacturers' index

In the EEM yellow pages you will find pertinent details on all manufacturers listed in EEM including local sales offices and/or distributors. Please refer to the detailed instructions on the first page of the EEM yellow pages for additional information.

to order a product found in eem

When you have located the product that suits your needs, call the manufacturer or the local sales rep or distributor as shown in the EEM yellow pages. Give the EEM data page number and specs from that page. You and the supplier will be talking on the same wave length which should simplify your ordering and buying.

to file manufacturers' catalogs and data

The EEM File System is revised and updated to reflect changes in EEM itself. Each new EEM File System contains a complete Product Index. This index tells you where to file which catalog. It also contains a cross reference identifying what should be filed in each section. In order to use the EEM File System all you need is a supply of standard letter size, third-cut manila file folders. You then use the pressure sensitive labels which are supplied with the system to go into as much detail as you want or need.

Each label fits the third-cut file folder exactly. There are over 300 of these labels in each system: one for the index, one each for the EEM Product Sections, 24 for the alphabetical file of multiproduct catalogs, plus more than 200 additional labels for system expansion. The EEM File System also includes Cross Reference Cards so you can quickly and easily find multiproduct catalogs. The EEM File System is complete and can save you countless hours of time and thousands of dollars. Send your check for $25.00 to: EEM File System, 645 Stewart Ave., Garden City, NY 11530 and we'll absorb postage and handling. Send a purchase order and add $5.00 for postage and handling. NY, CA and MA residents, please add sales tax.

NEW EEM EDITORIAL ADVISORY BOARD

We are indebted to the following companies and individuals who have agreed to serve on the 1993-94 Editorial Advisory Board:

Bel Fuse, Inc.	**Dennis Ackerman**
Signal Transformer	**Charles Lien** *Vice President Engineering*
Struthers Dunn, Inc.	**Bruce Anderson** *Vice President, Marketing and Sales*
Wintek Corp.	**Steve Belter** *President*
Kepco Inc.	**Paul Birman** *Marketing Manager*
Fujipoly	**Robert Bjornsen**
Airpax Sensor Div.	**Edward Bosman** *Manager of Special Projects*
Eagle-Picher Industries	**John Brothers** *Advertising Manager/ Regional Sales Manager*
KEMET Electronics Corp.	**Jim Bruorton** *Administration Manager, Marketing and Sales*
Entran Devices, Inc.	**William Caplan**
Collmer Semiconductor	**Jan Collmer**
Control Technology	**Herbert Cooper**
Instruments for Industry	**Tim D'Arcangelis** *President*
Heinemann	**R. E. Delaney** *Executive Vice President*
Murata Erie North America Inc.	**Jack Driscoll** *Senior Vice President*
Tenney Engineering Inc.	**Craig Edstrand** *Director of Marketing*
Kikusui International Corp.	**Joe Engler** *Sales/Marketing Manager*
Vernitech	**George Erbe** *Director of Marketing*
National Wire and Cable	**Sandy Evangelista**
Astro Tool Corp.	**Bill Evilsizer** *President*
Jan Hardware	**Andrew Franzone** *President*
Phi Technologies, Inc.	**Bob Gelernter** *Director, Sales and Marketing*
Hybrids International	**Abdul Ghafoor**
Weschler Instruments	**Gary Gonzales** *National Sales Manager*
Philips Components	**Blaine Grindle**
Genisco Electronics Corp.	**Richard Guerena** *Director, Sales and Marketing*
Thermodisc	**Jim Holbrook** *Vice President, Marketing*
Cherry Electric	**Keith Huebner** *Marketing Communications Manager*
Dale Electronics	**Herman Person** *Marketing and Sales Manager*
California Instruments	**Jack Kope** *Marketing Manager*
Eltech	**Brad Lizotte**
Unitrack Industries	**Richard Marchetti** *President*
Electro-Mechanisms	**Guy Martin** *President*
Star Micronics	**Patricia McCarthy** *Marketing Manager*
Kester Solder	**Robert Murphy** *Marketing Manager*
McCoy Electronics	**Marty Myers** *Vice President, Sales*
Optima	**J. M. O'Connor** *President*
Murata Erie North America, Inc.	**Ken O'Connor**
Micro Mo	**Dr. Steve O'Neil**
Astro-Med Inc.	**Everett Pizzuti** *President*
McLean Engineering	**Craig Reed** *National Sales Manager*

93 94 Product Index and Directory

All products are listed alphabetically by their generic names and then by subclassification. For example, look for "Fiber Optic Connectors" under "Connectors, Fiber Optic" or for "Digital Panel Meters" under "Meters, Panel (Digital)."

Following each product heading is a four-digit number directing you to the Product Section where these products are usually cataloged. If that Product Section is not in the EEM volume you are using, a "See Vol. A, B, C, or D" will direct you to the proper volume for your product classification. No numbers appear with cross-reference headings.

Under each product heading whose Product Section appears in the volume you are using, the names of the manufacturers who supply the product are shown in alphabetical order with EEM catalogers shown first in boldface type with appropriate page numbers. Other manufacturers are shown in light face type. The symbol (§) indicates that these products are available from local distributors. The symbol (†) indicates that the product is available to MIL specifications.

Abrasives-5400 – *See Vol. C*
Absorbers, Microwave-3450 – *See Vol. A*
Accelerometers-5500 – *See Vol. B*
Acoustic Systems (MIL)-2440 – *See Vol. B*
AC Power Distribution and Control — See Power Supplies, AC (Vol. D)
AC Power Protection Equipment — See Line Conditioners (Vol. D)
AC Power Sources — See Power Supplies, AC (Vol. D)
